

Geography

■ Remarkable Curriculum ■

Ambition

- We aim to encourage students' reading, writing and oracy skills so they can think like a critical geographer.
- We are ambitious about building interdisciplinary skills so that students are well rounded learners.
- We study a variety of current geographical issues and utilise decision making skills to suggest potential solutions.
- We encourage the development of analytical skills by using real geographical data.

Commitment

- We are committed to promoting physical, human, and environmental geography equally.
- We commit to providing a wide variety of case studies from varying countries and on different scales to broaden students' country knowledge.
- We will guide students to build their vocabularies by using key geographical terminology in every lesson.
- We are committed to ensuring students study a variety of topics in geography. Some of these include Fantastic Places (Y7), Globalisation (Y8), Geographies of Crime (Y9), Fieldwork (Y10) and The Changing Economic World (Y11).

Pride

- We will take pride in our knowledge of diverse places, people, and resources.
- We are proud of inspiring a curiosity and fascination about the world, people, and cultures.
- We are proud to strive for a more sustainable world and develop student's understanding of how to achieve this.
- We are proud global citizens who are aware of our contributions to the world around us, and our impact on people and nature.
