

Science

■ Remarkable Curriculum ■

Ambition

- We provide interesting and relevant applications of science content to drive our students to be ambitious and aspire towards high quality science careers.
- We are ambitious about nurturing our students to develop a curious mind about the world around them.
- We drive ambition in our students to have the skill sets to succeed in their chosen pathways.
- We are ambitious in supporting our students in developing their scientific abilities with our science skill set.

Commitment

- We are committed to teaching beyond the National Curriculum at Key Stage 3 and developing pupils' passion in STEM and Scientific Careers
- We are committed to developing the life skills of critical thinking and reasoning within our students through our science curriculum at all Key Stages.
- We are committed to revisiting content in a sequenced manner throughout our curriculum.
- We are committed to embed numeracy and literacy skills throughout the science curriculum.

Pride

- We are proud to offer extracurricular activities to our students to help develop their passion of the sciences.
- We are proud to offer a pathway that supports our students to develop their knowledge of science from Key Stage 3 all the way through to A-Level.
- We are proud to encourage our students to use scientific knowledge to make informed opinions.
- We are proud of our high-quality teaching and scaffolding to ensure that every student succeeds.
