GCSE Biology – After-School Intervention Sessions

Dear Parent/Carer,

As part of our commitment to supporting students in achieving their full potential in their GCSE Biology examinations, we will be running a series of after-school intervention sessions specifically for students studying GCSE Biology.

These sessions will provide students with additional opportunities to revisit key topics, strengthen their subject knowledge, address gaps in understanding and practise exam-style questions. The aim is to build students' confidence and develop the knowledge and examination skills needed to achieve their best possible results.

The sessions will take place on the following dates:

- Wednesday 11th November
- Wednesday 25th November
- Wednesday 9th December
- Wednesday 13th January
- Thursday 28th January

Session details

- Time: 15.15-16.10
- Location: A2
- Staff: Miss Rice

These sessions are intended to provide focused support for students studying GCSE Biology. We strongly encourage students to attend all sessions, as regular attendance will allow them to benefit fully from the additional teaching, guidance and exam practice provided.

We would appreciate your support in encouraging your child to attend these sessions and make the most of this valuable opportunity to improve their understanding and prepare effectively for their examinations.

If you have any questions, please contact the Science Department.

Thank you for your continued support.

Kind regards,
Miss R Rice
