Science Revision Guides

Dear Parent / Carer,

As a school we are able to purchase science revision guides to support your childs study at a discounted rate. The revision guides contain all of the course content summarised into key notes and diagrams, with problems for students to attempt to support their revision. We are able to supply revision guides to purchase for all students studying sciences at GCSE and A-Level.

CGP Combined Science Revision Guide (Year 9 - 11 Combined Science)

We are able to partially subsidise and supply these revision guides to all of our Year 9 – Year 11 students at a discounted price of £7.10 for students. This represents a saving of £6.50 compared to purchasing from CGP directly.

In addition, workbooks can be purchased at a cost of £11.60.

CGP GCSE Biology / Chemistry / Physics Revision Guides
(Year 10 + Year 11 Separate Science Students Only)

For students studying separate sciences there are 3 individual revision guides for each science. We are able to supply these to Separate Science Students at a discounted rate of £11.60 for the full set. This represents a saving of £10.90 compared to purchasing from CGP directly.

In addition, a set of separate science workbooks can be purchased at a cost of £14.70.

Students in Y10 studying Separate Sciences who have previously purchased a Combined Science Revision Guide from the school in Year 9 are able to swap this for Separate Science Revision Guides for no extra charge (subject to the revision guide being in an acceptable condition). To do so please bring the revision guide to myself.

Please note that students exchanging revision guides may be provided pre-used ones that are in suitable condition (this does not apply to students purchasing them).

Kind Regards

Mr W Brown
Head of Science
